

PREMIER
BOWL FEEDERS

Role Specification Bowl Feeder Fabricator

The PCE GROUP of Companies provide cutting edge automated solutions to global markets, spanning a variety of industry sectors, including Medical/Ocular and Pharmaceutical.

With over 40 years' experience in providing bespoke turnkey automation, ranging from stand-alone machines, to fully integrated high throughput cells. We pride ourselves on being able to offer our customers the complete in-house solution - from design to delivery.

Role

You will have experience and knowledge in bowl feeder manufacturing. You will be based at our Lutterworth site liaising with the Senior Bowl Technician and Design team. You will be able to manufacture and produce high quality fabrication and welding.

Responsibilities

- Assembling linear feeding equipment.
- Assembly of bowl feeder drive units.
- Building the equipment to completion in accordance with engineering documentation.
- Tig welding and fabrication.
- Handling and forming of sheet steel to a high standard.
- Basic use of manual milling and turning equipment.
- Problem solving during machine build, commissioning and installation.
- Assessing shortages both within projects and on consumable items, and informing other members of shortages.
- Adhere to and correct short fallings within statutory health and safety regulations and safe working practices.
- Understanding and safe use of industrial factory machinery such as band saw and grinding equipment.
- Communicating to all levels within the business.
